The Fire And Ice Theme
 1999-2012

THE BUCKMAKER WORDPRESS THEME It is called "FIRE AND ICE" and I think the right word to describe it is "Hot". But don't let the name fool you. This theme is not just a pretty face. It has many different features, including a sidebar, a search box, and a lot more. You would be able to easily use it with your WordPress.

The N95 8GB Camera Protection
 The issue of the N95 8GB camera cover, or the lack thereof, has repeatedly come up many times over. Most people want the camera cover back, because it keeps the camera window from getting dirtied and scratched. I kind of think so too. It's a pity that the N95 8GB, with a pretty fine camera and lens for a camera, should have been designed without any protection for the camera.

Hubbing With The HubStation
 After some months of procrastination, we've finally gotten around to getting ourselves a HubStation. StartHub makes the HubStation as a 3-in-1 device that lets you watch TV, surf the Internet and make phone calls. Actually, it's main feature is really about TV, in particular its DVR and interactive TV functions. At the risk of sounding so "janky", the DVR and interactive TV are really cool. (Yah, no DVR at home until now... other than the one plugged in my PC.)

Here are some images to let you know how they look. The first is floated to the right of the paragraph, which really doesn't describe much - just gives you an idea of how text wraps around the image, that's all. If you like the pictures, I suggest Flickr.

And then on to the next kind of photo styled for WordPress, which is a photo all by itself, aligned to the center, this time without a caption.

Montreal aujourd'hui... - Juin 1995

7 juin 1995

De retour de Halifax a 5:30 le matin, je suis a mon clavier avant meme 7:00. Le voyage fut long, mais cette fois au moins j'ai pu dormir...

Est-ce la longueur du voyage ou le plaisir de rentrer a la maison, mais j'ai rarement ressenti autant de joie en passant sur le bord du St-Laurent sur la 132, puis sur le pont Jacques-Cartier. Je prends quelques heures de sommeil avant de retourner a la vie normale, mais je sens qu'a mon reveil, la journee sera superbe... Il fait deja plus de 20 degres...

8 juin 1995

J'ai ete eveillee par un enfant qui courait sur toute la rue en hurlant. Lorsque j'ai regarde par la fenetre, j'ai vu que sa mere lui courait apres. Je suis sortie sur le balcon pour verifier le courrier, qui n'est pas arrive, d'ailleurs. Il fait frais aujourd'hui, le ciel est nuageux, la journee sera plus reposante que celle d'hier j'espere.

A Montreal, une journee pour le cine aujourd'hui. Je vous conseille Bleu, au Cine de Paris (pas cher), a 17h, ou bien un des films sur le Jazz a la Cinematheque. Au Parallele (3682, St-Laurent), il y a le festival international du Nouveau Cinema, ca peut etre interessant, mais je ne sais quel film y joue, telephonez au 843-6001 pour plus d'info.

Du reste, le Voir sort aujourd'hui, mettez la main dessus pour planifier votre fin de semaine, mais revenez donc me voir entre temps... :)

Et puis, envoyez-moi du mail, je m'ennuie.

Dimanche 9 juillet 1995, 11h15

Poussineaux, poussinettes, Bon dimanche! :)

Vous avez sous les yeux une journee SUPERBE, je vous DEFEND FORMELLEMENT de rester a l'interieur aujourd'hui, il fait trop beau! Un superbe soleil, pas trop chaud, un vent quasi inexistant. Que les chialeux d'hier
